## SR-720 PG2 PowerG® Wireless Indoor Siren

- PowerG two-way Frequency Hopping Spread Spectrum FHSS-TDMA technology - provides robustness and reliability closer than ever to wired
- Ideal for use in a wide range of private and commercial sites, including large complexes and multi-story buildings
- 110dB Piezo siren and high-power strobe light
- Distinguishes between fire and burglar alarms, emitting a different sound for each
- Large transmission range enabling repeater-free installations
- Battery life 8 years with typical use
- Visible link quality indication shown on the device
- Double tamper protection – cover and wall tampers
- Fully enclosed electronics area
- Compatible with PowerMaster systems and PowerG receivers

SR-720 PG2 is an ideal indoor siren for residential and light commercial buildings, particularly where outdoor sirens are prohibited. This two-way wireless siren produces all alerts, with differentiated alarm sounds for intrusion and fire. The extremely strong siren sound and built-in high-power white strobe light ensure the alarm gets noticed.

### Specifications:
